Hotter in Chicago
Social Security to
Pick Up 10 Millions

The South isn't popularly known as a summer resort but it comes closer being an ideal year-round home than any other section. And we don't fare badly in summer-time either. The high temperature in Hope Monday was 88 degrees—and in Chicago 91.

Oddest paradox of the F. D. Roosevelt administrations was that the same man who spent public money with an all-time record for wastefulness also devised the Social Security System which enables individuals to put aside something to maintain themselves in their old age.

When history has had time to fully examine all the political excursions and international adventures of F. D. R. the Social Security System will probably stand up as his greatest achievement—particularly great considering the atmosphere of confusion, profligacy, and mistakes into which it was born.

The present congress is preparing to enlarge the Social Security System from its nearly 50 million persons to almost 60 million. This is one of the things Dwight D. Eisenhower, a Republican, but history will always remember that the idea, originated with, and was put into practice by, Roosevelt, a Democrat.

Ordinarily Americans don't like the thought of borrowing ideas from Europe. But this was a good one. America leads the world in life insurance and other voluntary means of protecting the individual against poverty in old age, but the idea of making such protection compulsory was borrowed from the state socialism philosophy of Europe.

With it, of course, came the deluge of payroll deductions to which Americans finally have become accustomed. But Social Security represents one of our nation's most solid accomplishments—and it alone is enough to perpetuate the name of F. D. Roosevelt.

Plan Would Avoid Red Paralysis

By EDWARD M. KERRY

GENEVA, Switzerland (UP)—The Western Big Three today considered a plan which would put a four-nation neutral commission in charge of an Indo-China armistice without the risk of any Communist-imposed paralysis such as occurred in Korea.

Members of the commission would be the Soviet Union, Great Britain, Sweden and Switzerland. The nine-member Indo-China conference was in recess today but individual meetings were held by both East and West.

Russian Foreign Minister V. M. Molotov returned from a mystery trip to Moscow and immediately conferred with Red China's premier and foreign minister Chou En Lai.

The idea for a four-nation supervisory commission developed as a result of U. S. Under secretary of State Walter Bedell Smith's objection that no Communist state could be truly neutral.

523 Deaths on Highways Set New Record

By The Associated Press

Violent deaths over the three-day Memorial Day holiday period soared to a new record today. At least 523 persons died in traffic accidents, drownings, and miscellaneous mishaps. This broke the previous record of 510 for a three-day Memorial Day holiday in 1952.

The traffic toll was at least 355 or 15 above the National Safety Council's pre-holiday estimate of 340 and near the record 363 in 1952. An additional 82 lost their lives in drownings, and 76 in miscellaneous accidents.

Ned H. Dearborn, president of the Safety Council, said he was "disappointed" that the traffic toll exceeded estimates but he added: "Bad as the holiday death toll was, we believe it would have been even worse without the safety activity on state and local level resulting from the White House Conference on highway safety called by President Eisenhower in February."

The violent death total compared with 385 in the two-day holiday last year and the record Memorial Day total of 571 in a four-day period in 1950.

An Associated Press survey of violent deaths was taken from 6 p. m. May 14 to midnight May 17, the same time span as the Memorial day holiday, and showed a total of 243 traffic deaths, 13 drownings and 66 miscellaneous deaths for a total of 359.

The toll by states: traffic, drownings and miscellaneous:

Flexible Farm Price Plan Is Defended

ST. LOUIS, (P)—Secretary of Agriculture Ezra Taft Benson today defended the administration's proposed program of flexible farm price supports as one "that will be sound for farmers in the short-run and in the long-run."

The present program of rigid supports "taxes the American people for abundance only to deny them the full benefits of abundance," he said in a speech prepared for a meeting of the St. Louis Chamber of Commerce.

Benson said he will not heed the warning of some that the administration's program is poor politics. "There should be no room for narrow partisan prejudices in this question," he said. "We are dealing with something that affects the welfare of all farmers of all business — of all working people of all consumers."

Finds Best Way for a Girl to Cure an Overfriendly Boss Is Simply to Marry Him

NEW YORK (P) What can the poor working girl do to protect herself against "the overfriendly boss?"

I thought this problem went out about the time "Bessie, the Sewing Machine Girl" was a big hit. But apparently it didn't, and now Congress may have to consider it in revising the Taft-Hartley Act.

An office worker, writing to Patricia Porter of the Boston Traveler recently raised the question of "how to discourage the office boss from conveniently placing his hands on a girl's shoulders, arms or back while discussing business matter."

Admitting that it was a touchy subject and that often such gestures by the boss were completely friendly and an attempt to express their appreciation for work well done, the writer added, however: "The majority of girls are embarrassed and uncomfortable when it occurs. . . none enjoy it. . . and it results more often in strained employer-employee relationship than in a friendly businesslike one."

Thought Censors Denounced by Eisenhower

By WATSON SIMS

NEW YORK (P)—President Eisenhower last night deplored division within America on how to fight communism. He called for "more knowledge and intellect and less prejudice and passion."

A "crusade of truth" is needed both at home and abroad he said a dinner highlighted the 200th anniversary of the founding of Columbia University.

"Through knowledge and understanding," he said, "we will drive from the temple of freedom all who seek to establish over us thought control — whether they be agents of a foreign state or demagogues thirsting for personal power and public notice."

The President mentioned no names in denouncing "would-be censors and regulators" and those who "divert our attention from the main battle" in opposing communism — an overall goal on which he said Americans are united above all others.

White House Press Secretary James C. Hagerty was asked whether the President had referred in the speech to Sen. McCarthy (R-Wis.), with whom the administration has differed sharply in recent weeks.

"I am not going to try to interpret the President's remarks," Hagerty answered.

McCarthy could not be reached for comment.

The speech was a major statement of the President's views on how communism should be combated. His voice grew thick with emotion when he referred to "demagogues" and "division." Those parts of his speech were thunderously applauded by his listeners.

The nationally televised speech was heard by some 1,800 alumni, faculty members and friends of Columbia University who jammed the ballroom of the Waldorf Astoria Hotel and another 400 who overflowed into an adjoining dining room. A score of college presidents were in the audience.

It was a homecoming of sorts for Eisenhower, who was Columbia's president from 1948 until shortly before his inauguration last year. Applause interrupted the 30 minute speech 21 times.

Would Intervene in Indochina

By FRANK H. BARTHOLOMEW

SONOMA Calif., (UP) Adam C. M. Cooke, one of the Navy's top wartime strategists, said today the United States and its Allies should intervene in Indochina now "to terminate the evil of militant communism."

Otherwise he wanted the Communists will continue their worldwide series of local aggressions leading directly to World War III. Cooke, now retired to a hilltop ranch here, was chief of staff and chief strategic advisor to Adm. Ernest King, head of the U. S. Navy in World War I.

Flanders Raps Methods of McCarthy

By WILLIAM THEIS

WASHINGTON (NS)—Sen. Ralph E. Flanders (R-Vt.), charged today that Sen. Joseph R. McCarthy is dividing his country, his own church and his own party with "Dennis the Menace" tactics and should have his relations with Roy M. Cohn and Pvt. G. David Schine investigated.

In a Senate attack on McCarthy, the outspoken New Englander accused his GOP colleague of "colossal innocence"—which, like that of a youngster, gets his elders "into all kinds of trouble."

Flanders told the Senate: "Were the junior senator from Wisconsin in the pay of the Communists, he could not have done a better job for them. This is colossal innocence indeed!"

The senator said that the subcommittee investigating McCarthy's differences with the Army "has not yet dug into the real heart of the mystery" while he said "concerns the personal relationships of the Army private, the staff assistant and the senator."

Presbyterians Vote for Unification

By GLEN McCULLOUGH

MONTREAL, N. C. (P)—The 94th annual assembly of the Presbyterian Church in the United States (Southern) yesterday voted to join with the Presbyterian Church in the U.S.A. and the United Presbyterian Church.

Assembly of the two Northern branches had voted for union last week.

The move for union of 3½ million Presbyterians was started by the Southern Presbyterians and represented 16 years of planning. Plan after plan had been submitted and rejected.

This General Assembly might well become the most outstanding in Presbyterian history. Only last Saturday it landed a blow at Jim Crowism and asked its churches to let down racial bars.

Driver Delivers Baby in Cab

Yellow Cab company of Hope apparently gives all kinds of service—at least one driver, J. D. (Dick) Turnage, does.

Called to Rose Hill street to take a Negro woman to the hospital at 9:30 this morning Turnage had to deliver a baby girl in the back seat of his cab. The cab had just pulled away from her home when the woman started having her baby.

Turnage stopped the car, ran into a house, borrowed a pair of scissors, some thread and a bottle of alcohol. He sterilized the scissors with the alcohol, delivered the baby, and took the mother and daughter back home where he called the doctor. Mother and daughter are doing fine.

Turnage, a volunteer fireman, had just finished a first-aid course which the fire department conducted.

Reds Capture Defense Post Near Hanoi

By LOUIS GUILBERT

HANOI Indochina (UP) Communist troops have captured a defense post only nine miles east of Hanoi on the lifeline to Haiphong, imperiling the flow of American supplies the French high command announced today.

The French military command said traffic along the vital route was not cut off. But for the first time the Reds have established themselves in a post closely bordering the road.

Up to now the Communists had been able only to make quick forays, reaching the road for sabotage missions, and then withdrawing.

One such raid last night wrecked a supply train only three and one-half miles west of the newly won Red position bordering the highway. The train was blown up by a radio controlled Red mine and there were no casualties.

The French high command was seriously concerned by the Red seizure of the post menacing the railway line. The French said they suffered heavy losses in trying to hold the position against a superior force of Communist troops.

The attack which menaced Hanoi's life line was one of a series of sharp actions in the Red River delta. Most were aimed at disrupting the French plans for defense against the 40,000 rebel troops, massing 42 miles west of Hanoi.

Guatemala Eyes Latin Embassies

GUATEMALA (P) Guatemala's leftist government kept a close watch on Latin American embassies today for fugitives from a roundup of underground opposition leaders.

Local newspapers said widespread police searches so far had uncovered nothing to support the government's charges. Sunday's roundup of underground opposition leaders.

One diplomatic source viewed this as evidence that anti-government forces had "well-organized intelligence" forces, enabling them to learn "an hour or two" before the raid that they are coming so they can escape or seek refuge.

Five leading opponents of President Jacob Arbenz's regime already have found asylum in the embassies of El Salvador, Ecuador, in accordance with the Latin American political tradition that sanctuary must be given to political fugitives.

Reliable reports said the government was maintaining a guard on these and other embassies to prevent other fugitives escaping to them.

Guatemalans have been bitter against the United States since blasting their government for receiving a large shipment of arms from Communist Poland two weeks ago.

The newspaper El Espectador said "recruiters" for Col. Carlos Castillo Armas, a leading opponent of Arbenz now living in neighboring Honduras, had been discovered near the Honduran border. Without giving any source for its report, the paper said the government had found evidence of a "vast conspiracy" to build up a rebel army.

McCarthy Will Not Give Up Information

By ALVIN BRIVAK

WASHINGTON (NS) Sen. Joseph R. McCarthy declared today he will not be bound by any secrecy directive issued by President Eisenhower, asserted the Congress should ignore such executive orders and said "well, Presidents come and go."

McCarthy's statements came amid angry debate at the Senate inquiry into the Wisconsin letter for a dispute with the Army. . . wrangle kept the investigation session 30 minutes beyond the normal luncheon recess time and brought violent language from participants.

The secrecy issue arose when McCarthy refused to allow the disclosure of his committee files relating to Pvt. G. David Schine. . . he had had time to search them to make certain they would reveal no names of informants. . . Sens. John L. McClellan (D-Mo.) and Stuart Symington (D-Mo.) accused McCarthy of "blackout" tactics, and charged that incompetence to violate presidential directives and give him secret information he was challenging Eisenhower's authority.

McCarthy retorted: "I am setting myself above any law. But I just will not abide by any secrecy directive." He added that in his ban on delivery of secret information to members of Congress the President was guilty of "grievous error."

McClellan, referring to McCarthy's previous assertion that he would not respect any classification stamped on a document by "some little bureaucrat," said: "I am not a little bureaucrat," and said he would not be bound by any secrecy directive.

The Arkansas senator pointed out that "proper disclosure" of information authorized disclosure of the contents of a secret FBI warning against the release of certain information which McCarthy had unsuccessfully made public in the past.

SS Issue Is Before House Today

By WILLIAM F. ARBORE

WASHINGTON (P) Legislation to add an estimated 10 million persons to the social security rolls and to boost benefits and taxes comes before the House today. . . Drafted by the House Ways and Means Committee and backed in large part by recommendations of President Eisenhower, the bill is docketed under "taxes" and will be taken up in the House today.

The legislation has little opposition. The Senate has acted. Besides extending social security coverage to large new groups, the legislation would provide increased benefit payments for annual contributions by employers and employees, and a more liberal income test for people already receiving payments under the year-old program.

A major provision would raise from \$3,600 to \$4,200 the maximum annual wage on which both benefits and taxes are based. Of present rate of 2 per cent, both workers and employers will mean an additional payment of \$12 annually into the social security fund by each covered worker making \$4,200 or more or by employer.

The new benefit structure would boost monthly payments now being made to an estimated 4 million persons by a minimum of \$1. The new monthly minimum will rise from \$6 to \$10.

Maximum monthly benefits for a retired worker would be raised from \$85 to \$95.50.

Revels—Barnes Vows Pledged

On Saturday evening, May 29, 1954, at 7:00 o'clock in the First Christian Church of Hope, Arkansas, Miss Pansy Barnes, daughter of Mr. and Mrs. C. J. Barnes, of Hope and Mount Edward Revels, son of Mrs. J. M. Revels and the late Mr. Revels of McNab, were married in an impressive double ring ceremony by candlelight, with the Rev. Edmund Pendleton officiating. The couple knelt to take their wedding vows.

The church was decorated with baskets of white stock and greenery. Misses Shirley Faye Allen and Francine Allen, cousins of the bride, lighted the tall white tapers which burned in seven-branch candelabra. They wore identical dresses of white sheer batiste. Their wristlets

were of blue feathered carnations. Luther Hollaman, organist, and Mrs. James McLarty, Jr., vocalist, provided the nuptial music. Mrs. McLarty sang "Oh, Perfect Love," and "God Walks With Us."

The bride, given in marriage by her father, chose a street length dress of white Cluny screen lace, with matching bolero designed with cap sleeves and fitted snugly at the waist. The skirt flared gracefully over several layers of net. She wore a white hat with rhinestone trim, and carried a white bible topped with an orchid and streamers of white ribbon tied in sweet-heart knots.

Miss Anna Lou Barnes was her sister's maid of honor. Her dress was of pale pink linen with white lace trim. Her accessories were white and she wore a white half hat. She carried a cascade bouquet of blue feathered carnations.

Misses Princess Allen and Carol Stewart were bridesmaids. Their dresses were identical pale blue linen, trimmed with white lace. Their accessories were white, and they carried cascade bouquets of pink feathered carnations.

Joe Coker, of Houston, Texas, served the groom as best man. Ushers were Kenneth Renfro of Prescott, and Homer C. Allen of Hope.

The mother of the bride was attired in a navy dress with white trim. Her accessories were white and she wore a corsage of white carnations. Mrs. Revels, mother of the groom, wore navy also, with navy accessories. Her corsage was of white carnations.

Immediately following the ceremony, a reception was held in the Fellowship Hall of the church. The receiving line included the bride, groom, mother and father of the bride, mother of the groom, and

the attendants of the couple.
 Miss Norma Allen presided at the bride's book. Mrs. Willie Allen served the three tiered wedding cake and Mrs. Harvey Allen served the punch.
 After a short wedding trip, the couple will be at home in Houston, Texas, where the groom is employed. Mrs. Revels was formerly employed at the Hope Chamber of Commerce. Mr. Revels is a 1950 graduate of Saratoga High School and Mrs. Revels is a 1952 graduate of Hope High School.

Perez Rated a Top Featherweight

NEW YORK (AP) — Johnny Kilbane featherweight champ from 1912 to 1953, rates Lulu Perez, current contender, "a very good boy who still has a lot to learn." Grey-haired Johnny, now 65, watched the flashy Brooklyn kid easily whip Cleveland's Mickey Mars last night on a unanimous decision after 10 fast rounds at St. Nicholas Arena. "Both Lulu and Mars had better learn how to move," said Kilbane. "They're both too easy to hit. The only way" to beat Perez is by leading.
